Draft letter of appreciation to Mr. Eaton:

Dear Fred:

I want to express to you my deep appreciation for chairing the Special Group which extensively studied the complex aspects of the organization, scope and direction of the United States Signals Intelligence Program. We will now proceed to address ourselves to your findings and suggestions and see how best to put them to good use. I am most grateful to you for contributing so much of your scarce time to this important effort. Please accept my warmest personal regards.

Sincerely,

Richard Helms
Director
